

Seeking Patients with Parkinson's Disease

Have you been diagnosed with Parkinson's Disease?

If you are over the age of 40, with no alcohol or drug dependence, you might be eligible to participate in this research study.

This study examines a method of non-invasive brain stimulation called Transcranial Direct Current Stimulation (tDCS) combined with transcranial ultrasound (TUS) and their effect on the symptoms of Parkinson's Disease.

Study visits will be conducted at Spaulding Rehabilitation Network Research Institute in Charlestown, MA, and will require 17 visits (1.5-2 hours each) over an 11-week period. Compensation is \$25 per visit.

For more information, please contact the Laboratory of Neuromodulation by phone at 617-952-6151 or by email at recruitment@neuromodulationlab.org.
