

Research Study at the Center for Neurorehabilitation at Boston University

Decision-making for exercise

You are invited to join a research study in which you would participate in decision-making tasks focused on exercise during a single study visit.

You will be asked questions about your mood, thoughts and exercise habits followed by participating in a series of tasks on a computer and a cycling task on a stationary bike.

You may be eligible to participate in this study if you:

- are an adult 40 years of age or older
- have been diagnosed with Parkinson disease
- are able to come to the Center for Neurorehabilitation at Boston University for one visit

You will receive a \$10 gift card for your participation in this study, with the potential to earn up to a \$35 gift card based on your performance.

If you are interested in participating in this study or learning more about it, please contact Cristina Colón-Semenza at (617)358-6157 or csemenza@bu.edu
