Caregiver's Day Off Program Application

Guidelines

The caregiver applying for the Caregiver's Day Off program must reside in the home of the client with Parkinson's disease and be the person responsible for providing continuous non-professional care.

The client with Parkinson's disease may not be receiving any other funded or subsidized care services, such as Medicaid or Veteran's Aid and Attendance.

A diagnosis of Parkinson's disease must be confirmed by the client's physician.

The respite care approval process may take 7-10 days from receipt of the application, and will be reviewed in the order received.

Once approved for the APDA Caregiver's Day Off Program, a referral will be made to the appropriate agency. The agency will then contact the client to arrange an initial assessment and provide services.

The Home Care/Home Health Agency and the client will be responsible for arranging services.

The care recipient must be willing to adhere to the agency's policies regarding care.

Any care received beyond the approved amount will be the responsibility of the client.

I have read and understand the above program guidelines.
