

Working with Parkinson's Disease

Do you have Parkinson's disease?

Are you currently working?

OR

Have you recently stopped working due to factors relating to this illness?

If you are between the ages of 20 to 65 and answered yes to the above questions, you may be eligible to participate in a research study on employment in Parkinson's disease.

Participation will consist of an in-person interview lasting approximately 90 minutes.

If interested in learning more about the study, please contact Kelsi Carolan at carolan@bu.edu or (517) 898-0386, or ask a BU Parkinson's Disease and Movement Disorders Center staff member for more information.
